Axent

Design Meets Power

Premium Grade
Decorative Wiring Accessories

The Axent Collection marks a new generation in decorative wiring accessories, combining precision engineering with contemporary interior design through ultra-flat profiles, signature inserts, and premium metal finishes that integrate effortlessly into modern spaces.

From seamless screwless plates to bold square-edge designs, every detail is crafted to elevate everyday functionality into a refined design feature. Built to the highest standards and backed by a long-life guarantee, Axent sets a new benchmark where modern aesthetics meet dependable performance.
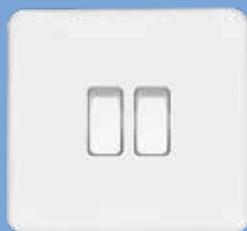

The New **Axent Range** of decorative wiring accessories offers four unique finishes
-offering blend of value to the market and versatility.

LUXURIOUS METAL BUILD

Premium durable metal construction with soft curved edges that fits neatly into the standard 25mm back boxes -offering hassle-free installation.

ULTRA MATT ULTRA FLAT FINISH

Modern minimalist design through precision engineering and flawless craftsmanship to elevate the most sophisticated interiors

SCREWLESS CURVED EDGE PLATE

Screwless curved flat plate offers an ultrasleek minimalist flat to wall profile that integrates seamlessly with any interior

SCREWED SQUARE EDGE PLATE

Brushed finishes offers a durable, low-glare metallic surface with a subtle grain that enhances both modern and professional design plans

MAGCHARGE

MAGCHARGE™ —
Qi2 Integrated Magnetic
Wireless Charger

MAGCHARGE™, part of the premium Axent Range and available exclusively from CED Group, redefines what's possible in decorative wiring accessories. Created through a focused year-long innovation programme, MagCharge brings true wireless convenience to the installed accessories market by blending minimalist design with everyday practicality.

Through patent pending technology and bespoke engineering, it moves far beyond the traditional USB socket — delivering seamless, secure Qi2 magnetic charging built directly into your wall for a cleaner, smarter, cable-free way to power your devices.

The World's First Magnetic Charger Socket

Features

- Qi2 magnetic wireless charging for optimal alignment with MagSafe-compatible phones.
- Supports magnetic attachment for iPhone MagSafe and all Qi2-enabled devices.
- Provides stable, cable-free charging directly from the wall — ideal for kitchens, bedrooms, offices, and commercial spaces.
- Eliminates cable clutter and reduces wear on charging ports.
- Strong integrated magnets keep the device securely in place while charging.
- Provides consistent charging even when device vibration occurs (notifications, alarms).
- Built-in unswitched socket available on 2G variants for maximum convenience.
- Flush-fit design blends seamlessly with modern interiors.
- Designed for easy installation into a standard 25mm back box.
- Durable metal faceplate available in premium finishes: Matt Black, Satin Chrome, Matt White

SCREWLESS
CURVED EDGE RANGE

The Axent Screwless Curved Edge collection brings refined minimalism to modern interiors with its ultra-flat, ultra-matt profile and seamless clip-on front plate. Softly curved edges create a smooth, contemporary silhouette that blends effortlessly into any space, while the screwless design delivers a clean, uninterrupted finish. Each unit is crafted with Axent's signature precision-engineered, custom-designed 3-pin inserts, providing a distinctive, premium visual identity even when sockets are in use. Built with meticulous attention to detail and engineered for durability, the range elevates residential and commercial spaces alike. Available in four luxurious finishes — Antique Brass, Matt Black, Satin Chrome, and Matt White,
— the Screwless Curved Edge collection is designed to complement the most sophisticated interiors.

Available in 4 different finishes

Antique Brass	Matt Black
Satin Chrome	Matt White

SCREWED
SQUARE EDGE RANGE

The Axent Screwed Square Edge range delivers a bold, architectural aesthetic, combining refined modern styling with the dependable practicality of a traditional screwed faceplate. Its ultra-flat, ultra-matt metal profile and sharply defined square edges create a clean, structured look that enhances both modern and classic interiors. Each product features Axent's signature precision-engineered, custom-designed 3-pin inserts, giving the sockets a unique, instantly recognisable identity and a consistently high-end finish. Built with robust metal construction and engineered for long-term reliability, the Screwed Square Edge range is available in Satin Chrome, Matt Black, and Matt White, offering a sophisticated solution for any installation. .

Available in 3 different finishes

Matt White

Unique Features
& Beniefits

DOUBLE POLE SWITCHES
Available on selected products for added safety

INTEGRATED USB-A
Available on selected products for traditional USB-A charging.

FAST CHARGING USB-C
offers faster charging to mobile phones

FULL METAL CONSTRUCTION
Slim robust full metal built for durable quality

ULTRA MATT FINISH
Luxurious ultra matt, ultra flat screwless finish

UNIQUE SOCKET DESIGN
Socket ports designed to be concealed by plug top when inserted

SMOOTH CURVE EDGE DESIGN
Soft curved edge design removing sharp angles for a user-friendly look

CAPTIVE TERMINALS
Appropriate terminal capacities and captive terminals to prevent screws falling out

INTEGRATED MOISTURE GASKET
Prevents any moisture transfer to decorative front plate

ANGLED TERMINALS
For quick and easy installation with etching on the poles for quick identification

UNIVERSAL COMPATIBILITY
Suitable for standard back box 25mm depth

HIGH QUALITY EARTHING
Twin earth terminals for high integrity circuits
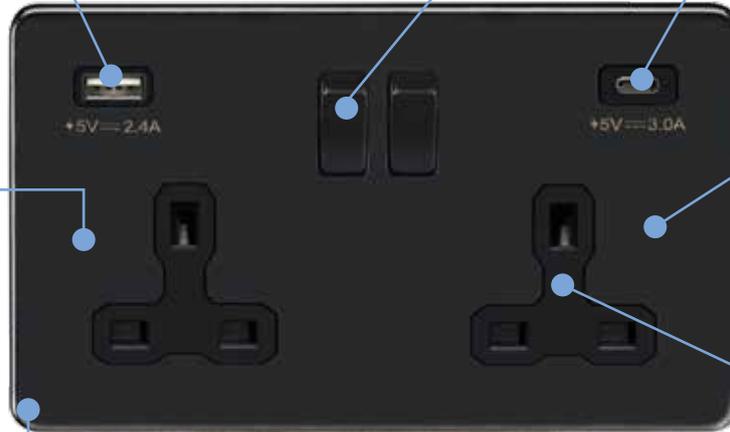

MODERN MINIMALIST PROFILE
Smooth sleek ultra flat design with just 4.5mm front plate edge projection

DIMENSIONS:
Double plates: 147 x 87 x 27.2mm
Single plates: 87 x 87 x 27mm
Edge projection: 4.5mm curve edge

REMOVABLE FRONT PLATE COVER
Detachable front plate with easy clip-in system making clean installation and decoration

2G 13A DP SWITCHED SOCKETS
WITH **USB A** + **USB-C** CHARGER

Curved Screwless Edge Profile
Available in all four finishes

XSSK2UACAB

Square Edge Screwed Profile
Not available in Antique Brass

XLSSK2UACSC

XSSK2UACMW

XLSSK2UACMB

Features
- Dual USB A+C charging outputs allowing simultaneous device charging without using the main sockets.
- Fast-charging USB-C supports modern smartphones, tablets, earbuds, and accessories.
- Power-sharing technology automatically allocates optimal charging current to each device.
- Double pole switching provides added safety — isolates both live and neutral.
- Ultra-flat, ultra-matt finish for a high-end contemporary aesthetic.
- Precision-engineered inserts sit flush with faceplate to minimise dust buildup.
- Soft curved screwless option or secure screwed square-edge option.
- Designed to fit standard 25mm back boxes — no need for deeper boxes even with USB circuitry.
- Supplied with M3.5 x 30mm long screws for flexible installation.
- Available in Antique Brass, Satin Chrome, Matt Black, and Matt White (Antique Brass available screwless only).
- Fully compliant: UKCA, BS1363-2, BS EN 62368.

45A COOKER SWITCHES + 45A COOKER UNITS WITH 13A SOCKET & NEON

XLS45SKNMW

XLS45SKNSC

XSS45SKNMB

XSS45SKNAB

Features

- High-capacity 45A double pole switching ideal for cookers, hobs, and high-load appliances.
- Integrated 13A socket (selected models) allows small appliances to be powered near cooking areas.
- Prominent red rocker and neon indicator provide clear on/off visual confirmation.
- Ultra-flat slim profile improves appearance over bulky traditional cooker switches.
- Screwless or screwed variants to match the entire Axent range.
- Engineered for secure heat-resistant performance in kitchen installations.
- Large, clearly labelled terminals suitable for 10mm^2 / 16mm^2 cooker cable.
- Standard 35mm back-box compatibility avoids special installation requirements.
- Impact-resistant metal faceplates available in four premium finishes.
- Complies with BS EN 60669 and BS1363 standards.

SINGLE AND DOUBLE BLANK PLATE
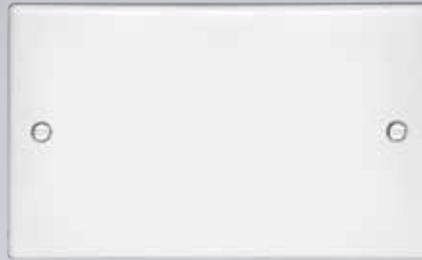

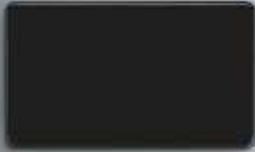

XLSBP2AB
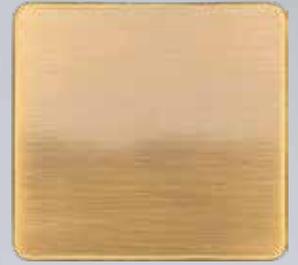

XSBP1AB

XLSBP2SC

XSBP1MB

• Provides safe, clean cover of unused wall boxes and redundant wiring points.
• Ultra-flat finish matches the full Axent aesthetic for consistent visual appeal.
• Screwless or screwed variants ensure compatibility across all installation types.
• Fully metal construction increases durability and impact resistance.
• Suitable for both horizontal and vertical mounting.
• Ideal for refurbishments, covering abandoned outlets, or reserving space for future upgrades.
